Resolved: For councillors to come back to the next meeting with full prices and proposals.

25.16.10.13. Christmas Trees and Lights

13.1 Arrangements for Kelbrook.

Various options have been considered previously. At the meeting it was decided that the simplest solution was to utilise the tree that was already there in the Village Hall Car Park Area. To fit our existing lights would mean a charge of £350 for fitting and removal plus also a charge to supply a new connection to the power source. Again the simplest solution was sought which was to purchase additional battery powered lights and a cost of £50 suggested.

Resolved: To purchase a set of battery lights and use them on the tree in the VH carpark.

13.2 Lanterns and Battery-operated lights

At our last meeting it was suggested that the PC potentially facilitate the making and displaying of more globe style lanterns. Cllr Ashley has researched best prices for materials and a budget of £350 would provide 25 lanterns to be displayed in the trees at both Kelbrook and Sough. These would be made in a workshop by residents. The Chair suggested also providing extra materials so residents could make one and pay for it to take home. It was suggested that when they came down they could be stored in the lock up for next year.

Resolved: For Cllr Ashley to organise ordering materials and set a date for a lantern workshop

13.3 Xmas tree at Sough
